**DETAILED ACTION**

1. Applicant's response filed on 02/24/2003 has been fully considered. The 35 USC 112 rejections have been withdrawn in view of applicant's comments and amendments. The examiner will consider applicant's response to the 35 USC 103 rejection after the applicant response to the following Election of Species Requirement.
2. Claims 5, 8, 10-12, and 15 are canceled, claims 1, 6, 7, 9 and 16 are amended, and claims 1, 3, 4, 6, 7, 9, 13, 14, 16 and 17 are pending.

***Election/Restrictions***

3. This application contains claims directed to the following patentably distinct species of the claimed invention: A: An image receptive sheet comprising a laminate in which a porous layer is formed on at least one side of a substrate, claims 6, 7 and 9; B: An image receptive sheet comprising a porous support of a porous plastic sheet or a fabric, claims 13, 14, 16 and 17. Claims 3 and 4 will be examined with the elected specie.
4. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 3, 4, 6, 7, 9, 13, 14, 16 and 17 are generic.
5. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 1774

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

6. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

7. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

8. The examiner attempted to contact Gerald M. Murphy on 05/09/2003 to request an oral election to the above restriction requirement, but did not result in an election being made. No one was answering the phone calls.

9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1774

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
